All prices and sizes are subject to change without notice. Prices do not include freight and many plants are too large to ship, especially those in larger than 3-gallon containers.

SHIPPING: We have been striving to keep shipping costs down. Our “old faithful” method of shipping in the containers has proven to be cost-prohibitive. Therefore, we are beginning to ship in the dormant season only. This will allow us to pack more plants per box and thus keep costs per plant at a reasonable level. Our new shipping costs are a flat \$50.00. Order as little or as much as you want and the cost remains the same! Hopefully this will prove to be fair to all.
